Election Requirement

Examiner acknowledges Applicants' election of iodosulfuron-methyl plus Mirapol. However, claims 9 and 10 require additional ingredients (surfactants, safeners, etc.) and claim 11 requires additional actives. Examiner is requesting a single disclosed composition specifically naming or completely defining all ingredients including desirable additional ingredients (specific compounds rather than broad compound classes). If Applicant does not specifically name or specifically define additional ingredients, claims to unnamed or undefined additional ingredients will be classified as non-elected.
